

Bogart Masonry, Inc.
(760) 363-7550
BogartMasonry@msn.com

If you have had stone installed we want to help you protect your investment!

Hard water deposits, pool chemicals and efflorescence can begin to ruin your stone or tile and fades the natural color. We can help restore your stone to its initial beauty through pressure washing and sealing the stone.

Bogart Masonry, Inc. is a trusted family run business that has been established in the desert for over 30 years.

We provide free quotes for all our services without obligation. We also have references from satisfied customers and top local contractors.
